

HAVE YOU HEARD the new BONNIE AND THE JETS' SONG?
No? Makes sense, because once you've heard it, it's hard to forget!
The Norwegian soul-rock bands latest song proves that they have their

feet firmly planted in the rock landscape..

Despite their relatively short lifespan, the Oslo-based band has managed to make a name for themselves, both at home and abroad. With their distinctive sound, they are considered pioneers of the soul-rock genre. In January this year, they were awarded "Best Song of the Year" by the British indie radio station WigWam for their song "Endless Summer".

Captivating, catchy & riff-based. Heavy, but easily digestible. These are keywords the band uses when describing their new song. Listen to the song here: <https://promo.theorchard.com/ckx530Z7Od9Rxoi307vP>

The lyrics are precisely about a Regatta, but in a more human sense. Regatta refers to an inner race, rush and chaos that one can find themselves in.
